

New!

Kuri Tec® Polywire® Plus Series K7300 Hose

"Imagine The Possibilities"

Ideal for Winery Transfer Applications

- Wire reinforced for vacuum and static dissipation
- Yarn reinforced for pressure
- Kink resistant
- Crystal clear PVC allows visual confirmation of product flow
- Glass-smooth interior reduces material buildup
- PVC inner contact surface is in compliance with FDA, USDA, 3A and NSF criteria and standards
- Lighter weight than traditional rubber hoses for easier handling
