

KSM300 Hydraulic Skive Machine

This machine is capable of skiving hose sizes from 1/2" to 3". It has features which not only make it easier to set up and use, but also make it an outstanding value.

Specifications:

- Capable of skiving 1/2" to 3" hose internally and externally.
- Both O.D. and I.D. Carbide Skiving Inserts remain sharp for a long lasting service life.
- O.D. Carbide Skiving Insert Blades have 4 useable cutting surfaces, which can be rotated quickly.
- Change from O.D. to I.D. skiving tool in seconds with quick connect technology.
- O.D. skive depth adjustability is easy and accurate.
- Adjustable stops on O.D. and I.D. Skiving Tools make changing skive lengths simple.
- Standard 110V single phase (Available).
- 110VAC Single Phase Gear Motor Reversible 59 RPM.
- Overall Size: 16.5" W x 24" D x 20.5" H.
- Weight: 215 lbs.

The KSM300 can be either bench mounted
or mounted on its own Mobile Cart.

KSM300 Hydraulic Skive Machine

The I.D. Skiving Tool is designed with a round carbide skiving insert for a cleaner and smoother cut.

The O.D. Skiving Tool is designed with 2 cutting arms, both can be used for skiving a single hose. The advantage is that one arm can be set up to skive 4 wire hose, and the other arm can be set up to skive 6 wire hose. Simply change the insert from one tool arm, to the other and skive the appropriate hose.

The Quick disconnect coupling allows you to quickly change from O.D. to I.D. Skiving Tool.

A convenient Tool Holder keeps all your skiving tools organized and readily available.

The laser etched scale is designed to help accurately calibrate the skive diameter.

The KSM300 can be easily controlled by a foot pedal, leaving the operator's hands free.

Hose Size	O.D. Skiving Tool Part Number	Approx. Wt. Each (lbs.)	I.D. Skiving Tool Part Number	Approx. Wt. Each (lbs.)
08	KST103692-08	3.0	Not available	—
