

Toxic Reduction Plan - 2

Substance: N-Methyl-2-pyrrolidone (872-50-4)

NPRI Identification #: 003787

Facility and Owner: Kuriyama Canada Inc. Trade Name: Kuri Tec

Physical Address: 140 Roy Blvd. Brantford, Ont. N3R 7K2

Mailing Address: P.O. Box 21004, LPMPO, Brantford, Ont. N3R 7W9

UTM Co-ordinates: N 43.17153, W 80.23445

Employees: 66 **Canadian SIC code:** 1699 **NAICS Code:** 326198

Contact: Walt Vogt, Vice President – Operations, 519 759-5111

Other Substances Reported under TRA: Bis(2-ethylhexyl) adipate (103-23-1)

Statement of Intentions: It is the intention of Kuriyama Canada to replace this substance with an alternate product.

Objective: It is the objective of Kuriyama Canada to source a replacement product which will eliminate the current substance noted above. This objective will be complete by 2018.

Usage of Substance: Kuriyama Canada uses the noted substance as a reactant between the layers of industrial hose applications to promote adhesion.

Options to be implemented: Kuriyama Canada has actively sourced a replacement product which is “green” technology and not listed under the TRA regulation.

Plan Statement: Kuriyama Canada hereby states that this plan (as written) accurately reflects the intentions of Kuriyama Canada to reduce and replace this substance.
