

VOLTBUSTER™

Superior Static Protection™

New Tigerflex™ Voltbuster™ Hose Designed for High Static Applications

- New Volt™ and VLT-SD™ Series (fabric reinforced) hoses effectively dissipate static to ground.
- Helps prevent static build-up and reduces potential for dangerous electrostatic discharges.
- Hose tube is constructed from highly abrasion resistant food grade polyurethane.
- Grounding wire is encapsulated in the rigid PVC helix which safely eliminates the risk of contamination.
- Ideal applications; transfer of powders, pellets and granular materials.
